Claims 1 to 12

The inventions that are set forth in claims 1 to 12 do not involve an inventive step in the light of documents 1 to 4 cited in the international search report.

Document 1 (claims), document 2 (claims), document 3 (paragraph [0009]) and document 4 (paragraph [0008]) disclose the feature of using the catalyst that is set forth in the present application during the polymerization of propylene oxides.

Consequently, it would be easy for a person skilled in the art to conceive of attempting to use the catalyst that is set forth in the present application during the production of polyethylene oxides in the light of the disclosures of documents 1 to 4.
